

Let Us Help You Jumpstart Your Career!

These “unique” courses, offered by Pace University’s Seidenberg School of Computer Science and Information Systems, are part of NACTEL’s Associates degrees .

Take the courses as a supplement to your job training without committing to the full degree—or, apply the courses to the degree at a later time. It’s your choice!

As a member of the NACTEL coalition, you are eligible for a tuition discount! For more information about the program and tuition discount, visit: www.nactel.org. The courses are 100% online and will help prepare you for troubleshooting the various networks and operating systems you see in client homes. They include:

Announcing NACTEL-sponsored two and four credit courses at Pace University on operating systems and other topics!

The courses are a convenient way to advance your skills, education, and career.
